This installation guide will provide the step-by-step instructions for installing a Sawgrass printer onto a Windows computer connecting via USB cable.

Note: If the Sawgrass Print Manager is already installed and running, go to the System Tray and click on the Print Manager icon and select Printer Utilities. Select Add A New Printer in the Utilities screen then skip to Step 14.

1. Go ahead and load the ink into the printer and turn the printer on. Do not connect the USB cable at this time. Proceed to step 2.

- 2. Go to www.sawgrassink.com and create a login and password
- 3. Once logged in go to Get Started and select Print Manager.

Printers	Inks	Support	Learn	Get Started	Membership
				Print Manager	

4. At the bottom of the screen click Download for Windows. This will begin the download.

5. Locate the downloaded file and run it. Click Yes on the User Account Control screen.

6. The Setup will now load. This can take a bit of time.

7. Select the language you will be using then click OK.

8. Click Install on the Choose Components screen (do not change any of the checkboxes).
